VD1 recording during laser illumination VD1

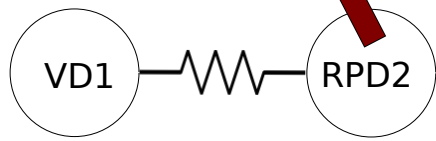

RPD2 recording during laser illumination VD1

VD1 recording during laser illumination VD1

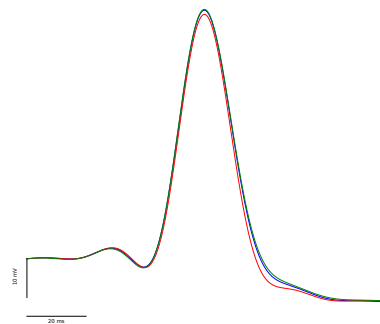

RPD2 recording during laser illumination VD1

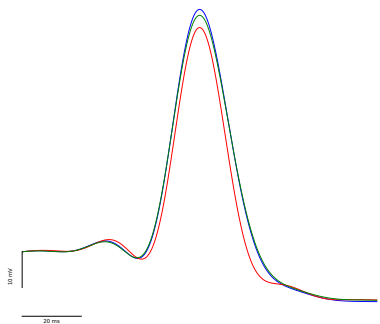

VD1 recording during laser illumination RPD2

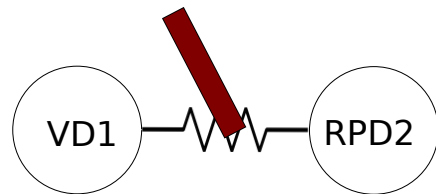

RPD2 recording during laser illumination RPD2

VD1 recording during laser illumination RPD2

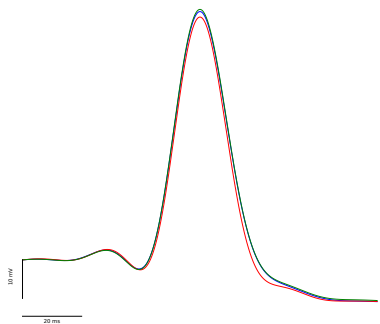

RPD2 recording during laser illumination RPD2

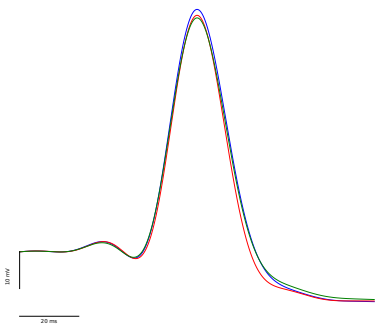

VD1 recording during laser illumination gap

RPD2 recording during laser illumination gap

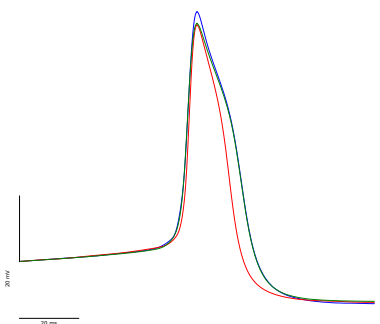

VD1 recording during laser illumination gap

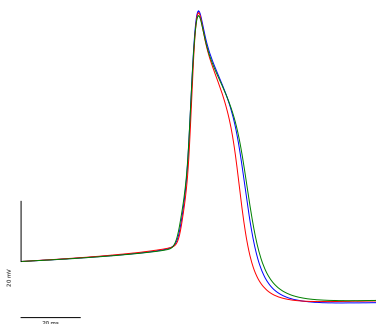

RPD2 recording during laser illumination gap

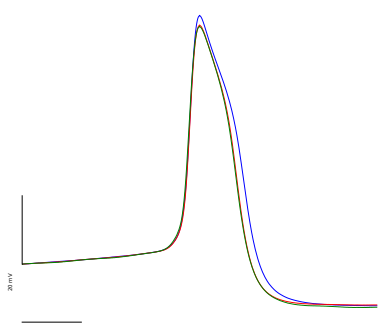

Example 2

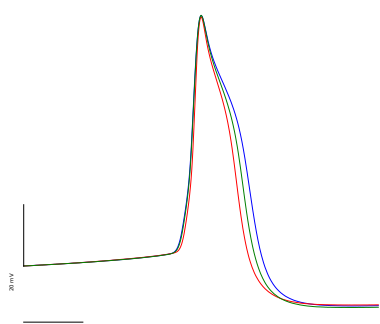

VD1 recording during laser illumination VD1

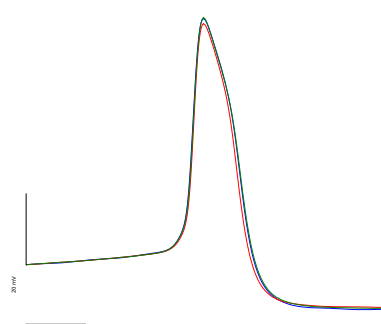

RPD2 recording during laser illumination VD1

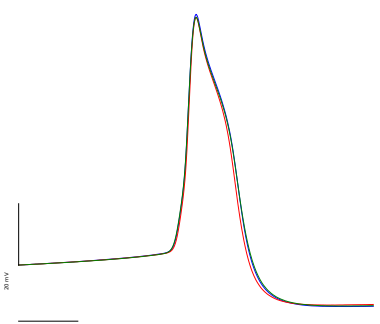

VD1 recording during laser illumination RPD2

RPD2 recording during laser illumination RPD2

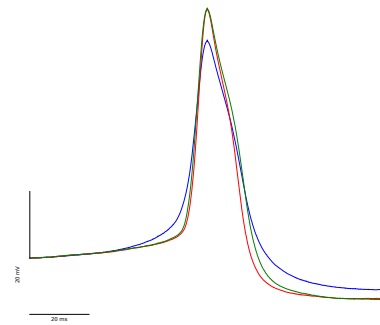

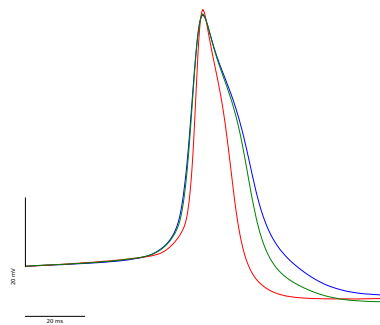

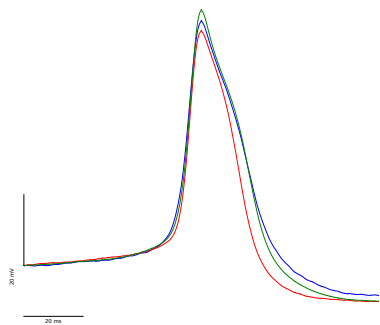

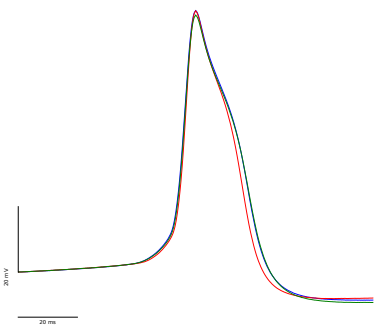

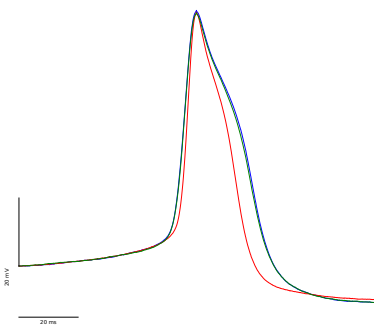

VD1 recording during laser illumination gap\_bot

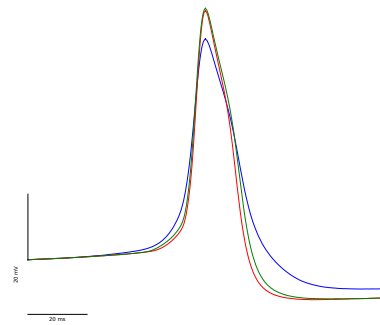

RPD2 recording during laser illumination gap\_bot

Example 3

VD1 recording during laser illumination gap\_top

RPD2 recording during laser illumination gap\_top
